

Recording Arts

Certificate Program

@ the Centre for Creative Communications

When you listen to an iPod or CD, play video games, or go out on the town for a taste of local entertainment, your experience is enhanced by the timing, quality, volume, and suitability of the music and sound effects.

Learn and master the creative and technical skills required to become a professional in the Recording Arts field using our high-end industry equipment.

Build your creative & technical skills in these areas:

- Recording Studio Techniques
- Microphone Placement
- Digital Recording
- Mixing
- MIDI
- Music Theory
- Pro Tools
- Live Sound
- Song Arrangement
- The Business of Music
- Sound Design

Program Highlights

- Receive a balanced theoretical and hands on approach to learning
- Participate in a real world recording studio environment with professors currently working in the industry
- Record and mix a live band in our facilities
- Jobs available include: Dialogue editor, foley editor, live sound engineer, location recording, engineer, mastering engineer, mixing engineer for movies/music, music producer, recording engineer, sound design, sound FX editor
And more !
