In the Hangar at Ashtonbee

Bruno Tucci, Jeff McCleod, Michael Francone and Mauricio Garzon are fourth semester students in the Aviation Technician—Aircraft Maintenance program. The students are shown conducting a pre-run inspection of the Pratt & Whitney PT61-20 turbo prop engine. The inspection ensures safe operation of the engine, enabling the students to conduct engine runs after maintenance, to check the operating parameters as would take place in the airline industry.

ASHTONBEE AUDITORIUM UPGRADE

Our thanks to Kurshed Irani and the Facilities team for their continued attention to renewing the Ashtonbee campus. The auditorium's brand new carpet is a welcome addition to our site.

Staff Profiles

Steve Ruch, Professor (Canadian Tire). Steve graduated from Centennial in 1980 and got married the same year. Steve and his wife have 3 children and enjoy Ballroom Dancing. "Centennial is like home to me. There is only one SoT and it is time for me to give back to the trade by teaching".

Glenville Singh, Professor (Truck & Coach). Glenville graduated from Centennial's Modified Apprenticeship class in 2001. When a vacancy arose this past January, staff members were quick to identify Glenville as a choice candidate for the position. Glenville and his wife have 1 daughter (Olivia).

Ingrid Joaquin (Apprenticeship Representative). Ingrid has been working at Centennial for more than six years and she plays a critical roll in coordinating over a dozen student intake sessions per year for our apprenticeship programs. Ingrid's favourite leisure activities? Pilates and reading.
